

Cox Cable
San Diego

To whom it may concern:

Upon my request, Doris Lew put on a make-up demonstration for the members of my Production Department. Using the talent that the crew would be working with, Doris displayed much skill and artistry in the application of television make-up. Both the crew and the talent were very amazed with the difference that Doris could effect upon them.

The most difficult task that we gave Doris was to do the make-up for our General Manager, a man with deep set eyes and a squinting nature. Not only did we see his eyes but he really looked great on the air. He was very pleased and made sure that everyone within hearing knew that Doris Lew was a true artist.

I have talked about about Doris the make-up artist, but just a thought about Doris the caring person...she took one of the crew members and taught her just a little bit more...she seemed to perceive that this woman would put the knowledge to good use. Now, thanks to Doris, KCOX Television has a make-up artist of our own. That giving a little extra, is a good description of who and what Doris Lew is.

Hope that my comments are helpful in making the right choice when it comes to selecting a good make-up artist. You won't go wrong with Doris Lew.

Thanks,
